OBJECTIVE

Motivated Diploma Computer Engineering student with strong interest in Software Development, AI, and Web Development. Seeking internship or entry-level opportunities to apply programming skills, build real-world projects, and grow toward a product-based career.

EDUCATION

Diploma in Computer Engineering (Direct Second Year)
G H Raisoni Institute of Engineering and Technology, Nagpur (2025 – Present)
Higher Secondary (12th), Maharashtra State Board – 2025

TECHNICAL SKILLS

Languages: Java (Core), Python (Basics), C (Basics)
Web: HTML, CSS, JavaScript (Basics)
Tools: VS Code, Git (Basics), GitHub
Concepts: OOP, DBMS (Basics), Data Structures (Learning), 8086 Microprocessor

PROJECTS

Java Swing Calculator: Built a GUI calculator implementing arithmetic operations and event handling.
Flask Web App: Developed a basic local web app with routing and backend logic using Python Flask.
Glide App (Rebuilding in Code): Designed a no-code mobile-style app and currently converting it into a coded web application.

STRENGTHS

Fast learner, disciplined, strong problem-solving mindset, good communication and teamwork skills, highly motivated toward long-term technical goals.

CAREER GOAL

To secure a software development role in a product-based company and achieve a high-impact career through continuous learning and real-world projects.
